SUMMARY

I am a computer engineering student at Universidad Nacional de Costa Rica. I have more than 3 years of experience in programming applications in numerous programming languages since several courses require me to perform more than one programming project per week. I am familiarized with languages such as C, C++, R, Java, JavaScript, and Php, in which I am very proficient in. Furthermore, I am passionate about developing web applications and mobile applications, which has led me to make them part of my hobbies. Likewise, I have spent much time helping external people with programming projects.

PROJECTS

Asset Management System - Universidad Nacional

Feb 2022

📅 Feb 2022 - Present

📍 Heredia, Costa Rica

- Description: Full-stack web application that manages assets, allowing import from an Excel file. In addition, it has an email account recovery system and a configuration section to customize the appearance. The information is stored in MySQL.
- Techs: React, Bootstrap, MySQL, JavaScript, HTML5, CSS, PHP, PHPMAILER

Mobile Application - Asset Management

Mar 2023

📅 Mar 2023 - May 2023

📍 Heredia, Costa Rica

- Description: Mobile application that connects to an external API to obtain the information of the assets registered by the company, performs a QR code scan, which shows the information of each asset. On the other hand, it has animations and sounds incorporated with the interaction with the buttons.
- Techs: Java, XML.

CERTIFICATES

Scrum Fundamentals

SCRUMstudy

📅 May 2023 - No Expiration Date

SOFTSKILLS

Self-motivation Organization
Risk-Taking Self-Learner
Critical thinking Problem-solving
Collaboration Teamwork
Organization Analysis
Responsibility

TECHNICAL SKILLS

• Programming Languages

JavaScript Java C++ C#
C Php SQL R

• Development Platforms

AWS GitHub GitLab Azure

• Operating Systems

Linux Windows

• Web Development Skills

HTML CSS Postman JSON
XML

• Frameworks

React Bootstrap

EDUCATION

Diploma in Computer Applications

Universidad Nacional de Costa Rica

📅 February 2019 - June 2022

Bachelor's in Computer Engineering

Universidad Nacional de Costa Rica

📅 August 2022 - Present

LANGUAGES

Spanish (native) English (intermediate)
